

CGS2021 16-17 November, 2021

CGS2021 is back with an in-person event at the Hotel Marriott in Medellin, Colombia on 16-17 November with a renewed focus on exploration and mining projects.

This year's event will feature several sessions on gold and copper exploration and development projects in Colombia and Ecuador, supplemented with panels on the changing regulatory environment in both countries, country risk and innovation.

The event is also launching its CGS Economic Development Awards to highlight innovative and impactful projects undertaken by companies in the sector to stimulate the development of the local economies where they operate.

CGS2021 will provide unmatched networking opportunities with a commercial exhibit, lunches sponsored by Royal Road Minerals and cocktails sponsored by ALS and Cordoba Minerals.
