[Discover the latest desalination innovations at Desalination Latin America 2025 – registration is already open](#)

Date: 19-20 March 2025

Location: Santiago, Chile

[Official website](#)

Organizer: Vostock Capital

The 7th International Conference and exhibition **[“Desalination Latin America”](#)** focuses on the latest achievements in desalination industry in Latin America. The event is dedicated to building business connections, showcasing the new desalination projects and innovations and consolidating the efforts of governments and business to increase water supplies all over Latin America.

[Register now](#)

Conference highlights:

- **More than 250 SENIOR EXECUTIVES** attend to Desalination Latin America each year. This key platform for executive leaders of the desalination industry, brings together delegates from local and international investors, as well as government representatives, regulatory agencies, academics, project owners, and providers of technology and services.
- **20+ DESALINATION PROJECTS** in Latin America: Chile, Peru and Mexico - ongoing and planned projects in the region.
- **More than 40 industry leaders and experts** will present and discuss the key topics influencing the development of the industry in Latin America.
- **Desalination Latam Recognition Ceremony 2025: Turning Tides: Celebrating Innovation in Desalination for a Sustainable Future!**
- **Strategic Opening Session: THE POLICY POWER: BOOSTING DESALINATION INITIATIVES.** Analysing the role of government regulations in desalination projects and key policies for growth in water-scarce regions.
- **Tech Innovations - The Future of Desalination:** Advancements in desalination technologies, including reverse osmosis and solar solutions that enhance efficiency and reduce costs.
- **Desalination Projects Unveiled:** An in-depth look at current and upcoming desalination projects across Chile and Latin America, focusing on planning, execution, and modernization efforts.
- **Round Table: Addressing the Freshwater Frontier:** Exploring innovative desalination methods and water management systems to meet rising demands.

Bronze Sponsor:

- **Latin America Rising: A Desalination Hub:** Highlighting the emergence of Chile, Mexico, and Brazil as leaders in the desalination market, showcasing new technologies and opportunities.
- **Strategic Planning and Operational Excellence in Desalination:** Insights on process optimization and integrating cutting-edge advancements in desalination technology.
- **Financing the Future: Investment Strategies:** Analysing public-private partnerships and innovative financing models essential for large-scale project development.
- **Round Table: Sustainability in Desalination: Balancing Act:** Focusing on sustainable practices in desalination to minimize environmental impacts, from energy consumption to brine management.
- **Ask your burning questions,** ask for advice, and share your experience during and after the sessions!
- **20+ hours of dynamic networking!** Participate in one-on-one meetings, roundtables, receptions, and interactive discussions. Don't miss the chance to exchange business cards with every attendee!
- **PRIZE DRAW among all the present attendees during the closing ceremony!**
- **DEDICATED EXHIBITION** of cutting-edge equipment and technologies for the desalination industry delivered by local and global leaders.
