The 6th Global Vertical Farming Show Returns to Dubai: A Future-Forward Platform for Sustainable Agriculture

Dubai, UAE – July 2025: TAB Group proudly announces the return of the **6th Global Vertical Farming Show (GVF 2025)**, taking place on **10–11 September 2025** at the prestigious **Festival Arena, Dubai Festival City**. Set against the backdrop of global food security challenges and the growing demand for sustainable solutions, GVF 2025 is poised to be a transformative event for vertical farming and controlled-environment agriculture (CEA) professionals worldwide.

Bringing together **5,000+ attendees**, **100+ exhibitors**, and **50+ industry-leading speakers** from over 35 countries, the show will serve as a strategic meeting point for agritech startups, CEA pioneers, investors, policymakers, and researchers. The event is spearheaded by **Mr. Mohammad Talha Sarwar**, Project Manager at TAB Group, who commented,

> *"GVF has grown into a dynamic marketplace for innovation and investment. With each edition, we are proud to raise the bar in terms of global participation, partnerships, and disruptive technology showcases."*

A Powerful Network of Business Partners

GVF 2025 is backed by a growing list of esteemed partners and sponsors, reflecting the industry's rising confidence in the vertical farming ecosystem. Companies such as **IEMA, Enjazonic, Wallfarm SRL, Körber Technologies**, have already joined as strategic partners, showcasing next-gen solutions in lighting, automation, engineering, and farm design.

These partnerships highlight the event's position as a premier launchpad for technological innovations, from climate control systems and IoT automation to turnkey farm setups. With support from government bodies like the UAE's Ministry of Climate Change and Environment and regional bodies such as **MOCCAE**, **ADAFSA**, GVF 2025 is set to catalyze public-private collaboration for food system resilience.
