

Japan Energy Summit & Exhibition announced in collaboration with the LNG Producer Consumer Conference (LNG PCC) 2025 on 20 June 2025

- Japan's Ministry of Economy, Trade and Industry (METI), in cooperation with the International Energy Agency (IEA), and in collaboration with Japan Energy Summit & Exhibition, will host the "LNG Producer Consumer Conference (LNGPCC) 2025" on 20 June 2025 at Tokyo Big Sight, East Hall 7.
- The LNGPCC 2025 will be co-located with the third day of the Japan Energy Summit & Exhibition 2025, as a platform to enhance cooperation between LNG producers and consumers.
- The co-location will facilitate deeper collaboration among LNG-producing and -consuming countries, global energy companies, and policymakers on the future of LNG markets, policy frameworks, and investment strategies.

Tokyo, Japan [26th, May 2025] – The Ministry of Economy, Trade and Industry (METI), in cooperation with the International Energy Agency (IEA), has confirmed that the LNG PCC 2025 will be held on 20 June, in collaboration with the Japan Energy Summit & Exhibition, organised by dmg events.

The LNG PCC 2025 will take place on the final day of the three-day Japan Energy Summit & Exhibition (18–20 June) at Tokyo Big Sight, East Hall 7. The LNG PCC was launched in 2012 as a platform to enhance cooperation between LNG producers and consumers. It serves as a platform for both sectors to discuss and set the direction for future natural gas and LNG initiatives.

Christopher Hudson, President, dmg events, added: "The collaboration of LNG PCC with the Japan Energy Summit & Exhibition provides an exceptional platform for high-level dialogue and investment mobilisation. This collaboration will deepen global cooperation to ensure LNG remains a competitive, secure, and cleaner energy source supporting the world's economic growth."

Bringing together LNG ministers, corporate executives, energy buyers, traders, and infrastructure leaders, this co-location strengthens Japan's position as a central hub for LNG trade and dialogue.

LNG PCC 2025 is open exclusively to invited stakeholders. Please refer the website for the further detail. <https://lngpcc.go.jp/> To participate in Japan Energy Summit & Exhibition and explore the full programme, including the Strategic Summit, Technical Conference, and exhibitor list, register at www.japanenergyevent.com.

About Japan Energy Summit & Exhibition

The Japan Energy Summit & Exhibition is Japan's most influential gathering for global energy leaders, investors, and innovators, focused on advancing the energy transition. Taking place from 18–20 June 2025 at Tokyo Big Sight, the event provides a forum for high-level discussions, technology showcases, and strategic partnerships to support energy security, economic growth, and decarbonisation. It serves as a critical meeting point for industry stakeholders looking to navigate the evolving energy landscape and unlock investment opportunities.
