

Lighting Innovation Summit Set to Illuminate Abu Dhabi on 10th September 2025

The Lighting Innovation Summit, the region's leading platform dedicated to the future of lighting technology, design, and sustainability, will take place on 10 September 2025 in Abu Dhabi.

Following the resounding success of the Riyadh edition, this event will bring together **lighting designers, architects, engineers, consultants, project owners, and technology providers** to explore the lighting innovations transforming the built environment.

The Summit will feature in-depth discussions on:

- **Smart Lighting & IoT Integration:** Discover how intelligent lighting systems are driving efficiency, safety, and user experience in public and private spaces.
- **Sustainable Lighting Solutions:** Learn about energy-efficient products and strategies that reduce operational costs and support ESG goals.
- **Human-Centric Lighting Design:** Explore how adaptive lighting impacts health, comfort, and well-being in workplaces and communities.

Attendees will gain insights from industry leaders and subject-matter experts, with a program that includes keynote speeches, technical presentations, and interactive panel discussions. There will be a showcase of the latest lighting technologies, products, and solutions that are reshaping the sector.

Key Highlights:

- ✓ Connect with over **180+ professionals and decision-makers**
- ✓ Learn from **renowned lighting specialists and innovators**
- ✓ Discover trends influencing **the future of smart and sustainable lighting**
